Ferris and Patrick McManus, of 452 Grand street, got into a boat and went after Coughran, who was paddling about and shouting for help. There were no oars in the boat, so the men paddled with their hands. When the boat got to Coughran he wouldn't get in, so he was towed towards the pier.

How England Treats Brutes Con-

It will be remembered that Mr. Hopwood, Q. C., M. P. (the Recorder of Liverpool), asked a question in Parliament
as to whether the sentence of flogging
had been carried out on the twelve men
convicted at the last assizes for robbery
with violence. The answer of the Attorney-General was that only one lof the
prisoners had up to that time been
flogged, says the Blackburn Times.

It has transpired that on Saturday the
eleven others received punishment with
the "cat" for robberies with violence.
The heaviest sentences awarded were to
Peter Cunningham and Nicholas Coughiln, who, for robbing an elderly man of
ils., were sentenced by Justice Day at
the last Liverpool Assizes to forty lashes,
with four and three months' imprisonment respectively, twenty lashes at each
whipping.

The flogging took place in the presence
of the Deputy Governor and the medical
officer of the prison, the punishment
being administered by prison wardens.
While some of them bore the punishment
with considerable fortitude, others veiled
for mercy each time "the cat" descended. It is said that in the case of
one of the prisoners, a Spaniard, who at
his trial pretended that he did not understand a word of English, his shouts for
mercy were delivered in very good English.

Col. Jim Struthers Gets His Face Licked by a Midnight Visitor.

"Montana is a zoological garden is its native state," said Col. Jim Struthers to a Washington Star man last night at the Arlington. "We have all kinds of wild beasts, from grizzly bears and prairie dogs down.

"Speaking of bears, reminds me of once upon a time. It was before the State got polluted by the trolley, and when it wasn't good form to wear a collar. It was before Montana got to be the greatest State in the Union. I was prospecting away in the Bull Mountains. I hadn't seen any dirt that looked as though it had the right ring to it. The sun was turning in and shadows were coming out of the East. I took the pack off one of my horses, picketed the animals and made a supper off hot coffee and bacon and bread. Then I colled up in a blanket and knew me more.

"The night must have been half spent."

coiled up in a blanket and knew no more.

"The night must have been half spent when I began to dream thet I was washing my face in one of the geysers of the Yellowstone. The sensation became so realistic that I awoke. Presently the licking process ceased and the bot breath was withdrawn. A big, dark awkward something shambled off and I sank to rest once more. When day came I found that my provision box has been raided, and the soft earth around me was full of bear tracks, I shivered a little bit and moved on."

The Colonel told this as though is really wanted to be believed, and the reporter left.

The mother did not go out to dinner that night. She stayed at home, told and read stories to the boys and petted them. The result was, and still is, that the mother dovotes and the Saturdays to to the youngsters. They visit the Art Gallery, the Museum, the Capitol, the old houses and the "Zoo."
